

TO SETTLE STRIKE BY CONCILIATION

[Republican A. P. Leased Wire]
WASHINGTON, July 20.—Settlement of the strike of cloak makers in New York City, which has been in progress for twelve weeks, probably will be attempted by the federal bureau of conciliation.

A request for appointment of mediators was referred by President Wilson today to the department of commerce and labor, which have jurisdiction and will be considered tomorrow when Secretary Wilson of the labor department returns to the capital.

The disposition of officials is to send mediators whenever interested persons request it.

The appeal to President Wilson was signed by Henry Morgenthau, Cleveland H. Dodge, A. Barton Hepburn and other New York men, and declared the strike threatened to curtail seriously the nation's supply of women's clothing.

BRITISH ADVANCE THOUSAND YARDS ALONG THE SOMME

(Continued from Page One)

"South of the Somme, between Bar-le-Duc and Soyécourt, all the first enemy trenches fell into our hands.

"In the Champagne district, we penetrated a German trench north of Aulhery.

"In the Argonne, the enemy attempted a coupe de main upon our small posts in the Bolante salient. After a lively hand grenade battle, the enemy was repulsed.

"Upon the left bank of the Meuse, bombardment continued in the regions of Avocourt and Chantonnay, together with hand grenade fighting on the slope northeast of Hill 204.

"On the right bank, we progressed west of the Thiaumont works. South of Fleury a powerful fortified work held by the enemy was captured by our troops, who took prisoner several officers and 150 men."

A notable tribute to the fighting abilities of the elderly Breton troops is given by the French official observer at the battle of the Somme.

"These Breton reserves," says the report, "dashed at the Germans with a spirit of young men. Many times in this war they have distinguished themselves, but it was difficult to imagine that these men of such calm aspect could transform themselves into impetuous troopers and rush at an enemy with all the fire of youth.

The extraordinary resources of their temperament had not been formally realized before."

The general in chief already had declared that these men have proven there is no difference between the regulars and the reserves. This is shown by the fact that these veterans

MIAMI ASKS FEDERATION OF MINERS TO CANCEL DEBT

[Republican A. P. Leased Wire]
GREAT FALLS, Mont., July 20.—Consideration of a report of the ways and means committee of the Western Federation of Miners, on the request of the Miami, Ariz., local for cancellation of a debt to the federation of \$1,165 brought out today the first roll call of the convention and took up most of the session. A majority voted to refer the matter to the executive board.

President Charles H. Moyer reported that he had consulted an attorney and learned that there is no legal objection to changing the name of the federation to the International Union of Mine, Mill and Smelter Workers.

The committee on president's report submitted a partial report commending the action of President Moyer for his

acts in connection with the Arizona strike and expressing belief that attacks made upon him in connection therewith were "entirely uncalled for and unjustifiable." No action was taken.

The committee on organization submitted a partial report suggesting that the secretary of the organization wire to the Minnesota federation the thanks of the organization for its offer of assistance in the proposed organization of the miners and associated workmen in the Mesaba range district. It has not been decided what action will be taken in connection with organizing that district.

The canvass of the referendum vote for officers cannot be completed before late tomorrow it was said.

WOODMEN ELECT HEAD CAMP OFFICERS

[Republican A. P. Leased Wire]
DENVER, Colo., July 20.—Head camp officers were elected late today by the Woodmen of the World, Pacific jurisdiction, after routine business had been expedited and the calendar moved forward by one day. I. L. Boak, Denver, was re-elected head camp. Other officers elected were:

Thomas J. Barry, San Francisco, head advisor; C. V. Benson, Denver, head clerk; A. E. Sunderland, Fresno, Cal., head banker; Frank P. Bertschy, Denver, head auditor; John Patterson, Spokane, W. Va., head secretary; Willis P. Hawley, Salem, Ore.; Tom Robinson, Oakland, John H. Altom, Denver; and Frank P. Hawke, Pueblo, head managers; Elmer S. Pommer, Seattle, head scout; E. E. Goodman, Townsend, Mont., head watchman; and H. G. Robins, head junction, Colo., head sentry.

A motion to increase the salaries of head camp officers should be granted an increase in pay. No action was taken on the latter proposition.

The question of admission of women into the order is the first matter to come before the convention tomorrow. Selection for the place for holding the next triennial head camp sessions is to be made the last day. Boise, Ida.; Pueblo, Colo.; and Reno, Nev., are in the race for the next convention.

CRAZY INVENTOR AMUCK IN NEWARK

[Republican A. P. Leased Wire]
NEWARK, N. J., July 20.—Four passersby in the street opposite his locksmith shop, were shot and seriously wounded here tonight by Salvatore Castronova, 55 years old, an inventor who had gone suddenly insane, before he set fire to his clothing and burned to death.

Armed with four revolvers and a double barreled shotgun, Castronova shot into the street until policemen began firing at him through the windows of the second floor of the building in which he lived. Then he ran to the other side of the house and fired at a crowd which had gathered there, but all of these shots went wild.

The flames from the inventor's clothing set fire to the house. A woman and her five-year-old son were rescued by firemen just in time to escape death.

Before the fire started there was an explosion of a bomb in the locksmith shop. The police believe Castronova touched a match to the fuse just before he fired his clothing.

BELIEVE ENGINEERS LOST
[Republican A. P. Leased Wire]
HONOLULU, July 20.—The navy tug Navajo and the light house tender Columbine abandoned search today for the five enlisted men of the engineer corps from Fort Shafter who put to sea last Saturday for a pleasure cruise in a fifteen foot launch. The waters off Oahu where the missing soldiers were cruising are infested with sharks and if the launch capsized, as the military authorities express fears that it did, the men would have no chance of saving themselves.

GRAPE JUICE AND FANS
OCEANOGRAPHY, N. J., July 20.—Hot and thirsty soldiers on the Mexican border were remembered today by members of the New Jersey W. C. T. U. in a session here. The women voted to send them cases of grape juice and a number of electric fans.

IOWA INFANTRY MOVING
[Republican A. P. Leased Wire]
DES MOINES, July 20.—The first troop train carrying the First battalion of the Third Iowa Infantry left Camp Dodge at 11 o'clock tonight for the Chicago Great Western and will be followed at 2:30 by the second train and at 3:30 by the third.

ARCH KLUMP IS CHOSEN PRESIDENT OF THE ROTARIANS

[Republican A. P. Leased Wire]
CINCINNATI, July 20.—Arch C. Klump, of Cleveland, was today elected president of the International Rotary club at the closing session here today.

The business session of the convention came to a close tonight but the board of directors and executive committee will meet tomorrow and name a secretary and select the next convention city.

Increased interest in civic affairs will be taken by Rotary clubs in all parts of the world as the result of a

resolution adopted today at the convention. This resolution declared that "Rotary clubs should enter into the study of civic matters, but their actions should be confined to individual efforts."

The finals of the Rotary golf tournament played today resulted in victory for Atlanta. The Atlanta men won the various cups and gold medals. Memphis players received silver medals.

In the finals of men's doubles the Rotary tennis tournament Salt Lake City defeated Indianapolis. Score: 6-1, 6-1.

Suits

The millinery dept. also is offering some very desirable opportunities.

Come quickly---be one of the first to get in on these splendid offerings

Brooklyn Doctor Has Cure For Epidemic

MAN OF THE HOUR IN PARALYSIS WAR

[Republican A. P. Leased Wire]
NEW YORK, July 20.—Health department officials and physicians who have been attempting to discover a remedy for infantile paralysis, showed keen interest today in a statement by Dr. N. McL. Whittaker, of Brooklyn, that in about a dozen cases of the disease treated by him beneficial results had been obtained from hypodermic injections of quinine and ureahydrochloride.

Dr. Whittaker said tonight that this prescription can be used internally, but that he prefers to use it as an injection because it acts as an anesthetic and does not disturb the child's stomach, as it does when given internally. In all cases he had treated he said marked improvement had been observed a few hours after injections of the preparations.

Referring to Dr. Whittaker's experiments, Health Commissioner Emerson said that the treatment had been used in a great many different cases.

Parents were urged today to give particular care to the mouths and teeth of their children. Dr. Matthew Carney, in charge of the health department's dental supervision, said that investigations show that people rely too much on so-called antiseptic mouth washes. "What is really needed," he said, "is regular brushing out of the teeth and mouth after each meal, and adequate rinsing with clean water.

A little salt added to water increases the cleansing of the teeth."

Dr. Haven Emerson

ment in the camp of the Second Montana infantry. Captain Olson and twenty-two men followed them along the border for several miles to ascertain where they were going and that no raid was intended.

The excitement in the camp was manifest in the first reports reaching Douglas the size of the army of Mexicans having been magnified to from four to ten thousand men, with many hundred women and children camp followers.

The Moctezuma Copper Company and El Tigre Mining Company received permission from the state department in Washington, D. C., today, to ship explosives for use in mining to their properties in Sonora. Both companies announced today that this permission will allow them to work on a normal basis and they expect to be in full operation within a few days.

Americans Are Fleeing
BISBEE, Ariz., July 20.—American mining men who returned to Cananea, Sonora, Monday are fleeing back to the American side tonight, following riots by the Mexican population, according to three Americans who arrived here tonight. The refugees said the Cananea Mining Company's store one mile north of Cananea was looted by civilians Tuesday night, and that they are subjecting Americans to numerous indignities, despite protection of the military.

Upon the American's arrival Monday, according to the refugees, a mob of Cananeans attacked the train, seeking to force its departure, but the military authorities interfered, and escorted the Americans to safety.

Most of the Americans are expected to come out tomorrow.

San Diego at San Diego
SAN DIEGO, Cal., July 20.—The cruise San Diego, flagship of Admiral Winslow, arrived in port today from La Paz, Mexico, bringing twelve refugees. Officers of the vessel reported quiet conditions prevailing along the lower west coast. They said it was the intention of the navy department to keep all of the warships now on southern patrol duty in those waters indefinitely.

The San Diego, unless present orders are revoked, will return to La Paz as soon as Rear Admiral Caperton, assumes command of the Pacific fleet. Admiral Winslow said he would haul down his flag July 25 instead of the 29th, the date of his retirement.

The refugees included O. L. Wallender, Omaha, Neb.; Carl Zellerman, Nogales, Ariz.; and J. Y. Shelden, Bisbee, Ariz.

TWO ARE DROWNED
[Republican A. P. Leased Wire]
OGDEN, Utah, July 20.—Jennie B. Campbell, 21, and Richard Cavius, 18, were drowned today while bathing in Ogden river.
